

Crêdo Cube™

The Trusted
Standard for
Reusable Parcel
Shipping

Crêdo Cube has set the standard for reliable, reusable temperature-controlled shipping. Engineered for consistent thermal protection, simple pack-out, and long-lasting durability, Crêdo Cube delivers peace of mind with every payload. Whether facing shipping delays or scaling global distribution, Crêdo Cube is built to protect therapies, budgets, and the patients counting on them.

Proven Protection for Every Payload

Crêdo Cube was designed to protect your products, your patients, and your bottom line. With Crêdo Cube, you gain:

Reliable Thermal Protection

Qualified to ISTA 7D standards, Crêdo Cube maintains precise temperatures for up to five days, ensuring product integrity from origin to destination.

Error-Proof Assembly

Simple, standardized pack-out with TIC components minimizes handling errors, streamlining operations and safeguarding product efficacy.

Flexible Procurement Options

Purchase, lease, or rent — Crêdo Cube adapts to your program needs, balancing cost efficiency with premium performance.

Proven Reusability

Designed for real-world durability, Crêdo Cube supports a circular supply chain model, reducing landfill waste and supporting your ESG goals.

Optimized Shipping Efficiency

Engineered for high payload capacity with low volumetric weight, Crêdo Cube helps reduce freight, storage, and CO₂ emissions.

→ Temperature Ranges

+2°C to +8°C
+15°C to +25°C
Below -18°C
Below -50°C
Dry Ice

→ Duration

96 to 156 hours
(qualified to ISTA 7D)

→ Sizes

3L to 96L

→ Procurement

Purchase, lease, or rent

→ Reusability

Proven 5+ year lifespan

→ Sustainability

Fully reusable with
minimal waste

Crêdo Cube

The Reliable Choice for Life Sciences

Crêdo Cube is the go-to solution for life sciences organizations managing high-value, temperature-sensitive shipments. Trusted in clinical and commercial pharma, Crêdo Cube delivers predictable performance, no matter the conditions.

Beyond Packaging: Services That Deliver

Choosing Crêdo Cube means gaining access to services and technology designed to protect your therapies and your business:

Total Cost of Ownership Calculation

Understand the full financial impact of your cold chain, including hidden costs like storage, conditioning, and excursions.

CO₂ Footprint Calculation

Life Cycle Assessments and emissions tools help you reduce your environmental impact while maintaining product integrity.

ProEnvision™ Asset Management

Track, monitor, and optimize your Crêdo Cube fleet with real-time data, improving visibility, control, and operational efficiency.

Trusted Partnership. Proven Results.

With Peli BioThermal at your side, you gain a partner committed to protecting your products, your patients, and your sustainability goals.
